MERN Stack

Engineered an EdTech platform using **MERN** stack, featuring course commerce and **lecture streaming** functionalities. Enabled course **purchasing and selling, integrating a secure payment gateway**. Seamlessly managed state with **Redux**, while **React Router** facilitated smooth lecture navigation. Integrated advanced search functionality, **user authentication** via **JWT**, and sleek UI design using **Tailwind CSS**. Backend data stored on **Cloudinary** and **MongoDB**.

• GLAMOUR-FOOD APP [Live](#) [Github](#)

MERN Stack

Designed and developed a Glamour Food application using the **MERN (MongoDB, Express.js, React.js, Node.js)** stack along with **Redux** for state management and **Stripe** for payment integration. Leveraged **Tailwind CSS** for responsive design, ensuring optimal user experience across devices. Implemented features to streamline food ordering, delivery tracking, and payment processing, resulting in a seamless and intuitive platform for users. Demonstrated strong proficiency in both front-end and back-end development, as well as a keen eye for detail in user interface design.
